

MONEY'S WORTH

FOR TFCU MEMBERS

April 2020

Update your passwords regularly

Recycling your favorite passwords repeatedly and using the same ones for multiple sites may be easy for you to remember, but experts say it's not the safest idea. Hackers know this is a common practice. If they get access to your password on one account, they have the potential to access all other accounts you have set up using the same information.

To achieve a strong password, make sure it's at least twelve characters long and includes capital letters, special characters and numbers. Avoid using common phrases or easily accessible information, such as your child's name or birthday.

The strongest passwords have a combination of random characters. If you must write them down to remember, lock them up. 💰

Weathering market volatility

Times of market volatility can often trigger emotional responses in investors, responses that can impact judgment and potentially affect long-term plans. Too often, investor emotion follows the ups and downs of the market. While market volatility is largely out of our hands, understanding how it occurs and the role of your long-term financial plan can help you weather the storm. Here are some points to remember during times of volatility:

- Volatility is the product of uncertainty in the financial markets.
- Effective asset allocation and diversification can help protect your portfolio.
- Maintain perspective. Despite periodic pullbacks, returns over multi-year periods are generally positive.
- Have a financial plan in place to keep you on track.
- Have a clear understanding of your tolerance for market movements. This can help you handle the ups and downs of your portfolio.
- Periodic reviews of your investments is important and rebalancing as necessary can help keep your portfolio in line with your objectives.

The team at TFCU Financial Advisors is here to help you during this time of market uncertainty. Call today to start or review your long term financial plan.

Five best practices to keep you and your family in good health this spring

ONE

Wash your hands frequently

Wash your hands regularly with soap and water for at least 20 seconds. If you do not have access to soap and water, you should frequently clean your hands with an alcohol-based hand rub that contains at least 62 percent alcohol. Always dry your hands thoroughly.

TWO

Avoid touching your face

Our hands touch many surfaces throughout the day and can pick up viruses. Once contaminated, hands can transfer the virus to the eyes, nose or mouth. Be sure to clean and disinfect frequently touched objects and surfaces.

THREE

Cover coughs and sneezes

Best practices for covering coughs and sneezes include covering your mouth and nose with your flexed elbow or tissue. Dispose of the used tissue immediately and clean your hands to avoid virus droplets being spread.

FOUR

Sanitize your debit and credit cards on a regular basis

Like other frequently touched surfaces, your debit and credit cards also need regular sanitizing.

FIVE

Use online account access and digital payment options when available

Take advantage of online account access tools such as Home Branch and Home Branch Mobile. Additionally, opt for using digital payment options like Samsung, Apple or Google Pay instead of handling cash or cards.

Let's celebrate National Volunteer Week

National Volunteer Week is an opportunity to celebrate the impact of volunteer service and the power of volunteers who come together to tackle tough challenges and build stronger, more resilient communities.

Did you know our Board of Directors and Supervisory Committee are comprised of volunteers? These volunteer board members are not paid, but care enough about the credit union to dedicate their time and effort to help us make decisions and grow. Like you, they are TFCU members—moms, dads, grandparents, working professionals, retired, military or former military and more.

Thank you to our TFCU volunteers for all of their time and effort that continuously goes into making Tinker Federal Credit Union the strong cooperative we are today. We appreciate you. 💰

QUICK TIP
