WINTER 2018

PUBLISHED QUARTERLY FOR THE
SAVEABLES KIDS CLUB AT TFCU

Get In On Give Back for Kids!

Being a member of the SaveAbles Kids Club is an easy, fun way to save money and get cool, free stuff. And, some lucky SaveAbles members can get even more through Give Back for Kids!

Every month, five kids with a SaveAbles account will have one deposit matched up to \$100. Who knew multiplication would be so much fun?

It is all part of our member Give Back at TFCU! This is one way we get to say "thanks for being a member." Make your deposit for your chance to win today! 😊

Get excited
about saving!

April Fools!

April Fools' Day, celebrated on April 1, is more than playing jokes. That's just the most fun part of the day!

In the 16th century, France celebrated the New Year just like we do today, except it was on April 1. In 1562, Pope Gregory changed the calendar to the one we use today and, from then on, the New Year began on January 1. Lots of people didn't know about the new calendar, or they ignored it and kept celebrating on April 1. Everyone else called them April fools and played tricks on them. 😊

How Much Does School Cost?

School isn't free. Even public school. Did you know that most public school systems spend \$7,000 to \$8,000 for each student, every year, and in some states it is as high as \$21,000? So where does all that money go?

One of the biggest expenses for a school is transportation. Many kids ride the bus. Schools need money to run buses and to pay the bus drivers.

Riddle me this!

Why did the student throw his watch out of the school window?

A: He wanted to see time fly!

Why did the broom get a poor grade in school?

A: Because he was always sweeping during class!

Why did the M&M go to school?

A: Because he wanted to be a smartie!

Then, there is the cost of lunch. Even though most students pay around \$2.00 for their lunches, this only pays for about half of the costs. The schools have to buy the food, transport it, prepare it and hire cooks and servers.

The most obvious expense is hiring and paying teachers. Without teachers to help us learn, how could we have school?

There are also materials. Teachers often buy extra pencils and crayons for the classrooms with their own money. The school provides some things, like computers, projectors and calculators.

Any school clubs, programs or sports also make a dent in the school's budget.

Whether it is private or public, education costs money, and lots of it! 😊
